

CITY OF Jesup

Commercial Facade Grant Program

The City of Jesup is pleased to announce the launch of its Commercial Facade Grant Program. This program represents a partnership between the City and local property owners to create a more vibrant, attractive, and economically resilient community.

The program offers a 40% matching grant, up to \$40,000 per property, to assist with exterior building improvements such as masonry repair, storefront restoration, window and door replacement, signage, and accessibility upgrades.

The goal of the program is to preserve Jesup's historic character while encouraging investment in building improvements that strengthen the city's core business districts.

WHY FOCUS ON BUILDING EXTERIORS?

While successful businesses are essential to a thriving business district, the appearance and condition of buildings set the stage for economic activity. Well-maintained and attractive buildings create a positive first impression, encourage foot traffic, and make it easier for businesses to attract customers and succeed. By investing in building exteriors first, the City is helping to create an environment where businesses can grow and new opportunities can emerge.

PUBLIC PURPOSE AND COMMUNITY BENEFIT

Although the program provides funding to private property owners, it serves a clear public purpose. Building facades are highly visible from public streets and sidewalks, and improvements directly benefit the community by:

- Enhancing the overall appearance of Jesup's business districts
- Supporting local businesses and economic activity
- Protecting property values
- Encouraging additional private investment
